THE GREAT RUSSIAN RAILWAY.

The great railway from St. Petersburg to Moscow, recently opened, is in nearly a straight line, and 400 miles in length. The track is double, of 5 feet guage, and some of the bridges are elevated York and Erie Railroad, became engineer-in-chief, and finished the Russian road. The entire cost is stated at \$25,000,000. The locomotives have all steamboat of 209 tons with tolerable success at the stamp of American genius.—They were built Barcelona, Spain. It consisted of a cauldron of by Harrison, Winans, and Eastwick, from drawings by Major Whistler, and are outside cylinder reverse engines, and are intended for burning wood. They are 162 in number, of which 42 are for passengers and 120 for freight. The passenger cars are built upon the American plan, and are 56 feet long and 9 1-2 broad.

The two imperial carriages are very magnificent being 84 feet long by 10 broad, and 7 1-2 feet high, and supported on 16 wheels on the Bogic principle. These carriages have spacious apartments, furnished for the Emperor and Empress separately, in the most improved and luxurious manner. They are fitted up with beds, and a kitchen car is attached, with larder, wine cellar, ice house, &c. The road is to be run in fifteen hours. It used to take the diligence seventy-five hours, and wagons eleven days with freight. Boats by rivers and canals, between the two cities, make the trip in from fifty-five to sixty days, and frozen up half the time at that. Nicholas has caught a good deal of the "progressive spirit of the age," and a railway from St. Petersburg to Warsaw, 797 miles long, is now strongly talked of.

END OF A BEAUTIFUL WOMAN .- The celebrated Lady Hamilton was distinguished above almost every other woman of her age, for personal beauty. Her accomplishments were scarcely inferior to her beauty. She was skilled in music and painting; she had exquisite taste, and her features would express every emotion by turns.

In 1793 Oliver Evans, a native of Philadelphia, The only occasion on which Beckford, of Font hill Abbey, threw open his splendid mansion to company, was when Lady Hamilton, along with Lord Nelson, visited it. All that the wealth of the princely owner could furnish, was provided to give splendor to the scene. The grounds were illuminated by lamps and torches, and the interior of the apartments was a blaze of jewelry and gold and silver. Spiced wine, and confectionery in golden baskets, were handed round to the company. A numerous party was assembled, and Lady Hamil-
